

Green Culture Flask

Crystalgen, global leader in innovation, introduces the world's first 100% bio-degradable Lab Disposable plastic wares.

Crystalgen is proud to introduce the first series of Green Products - Green Flasks™. The flasks are made of raw polymer which has excellent biodegradable property. These new materials can be degraded to carbon dioxide and water by micro-organisms in the soil and do not harm the environment. Under normal conditions, the green products can be degraded by the soil within a year after disposal or 70 days under composting conditions. These are considered to be the most promising bio-degradable plastics of the 21st century.

Crystalgen is a pioneer in developing bio-renewable plastics and it's application in medical/biological and pharmaceutical usage. It has been certified by LNE EN13432 biodegradable report and FDA Biomedical Applications.

Green Culture Flask is ideal for use with all shaking cultures, mixing, and storage of biomedical fluids. It comes from nature and is renewable.

ORDERING INFORMATION

STANDARD

CAT#	QTY	PRICE	CAPACITY
26-0001	24/CS	\$118.45	125 ml
26-0002	24/CS	\$157.00	250 ml
26-0003	12/CS	\$102.45	500 ml
26-0004	12/CS	\$175.00	1000 ml
